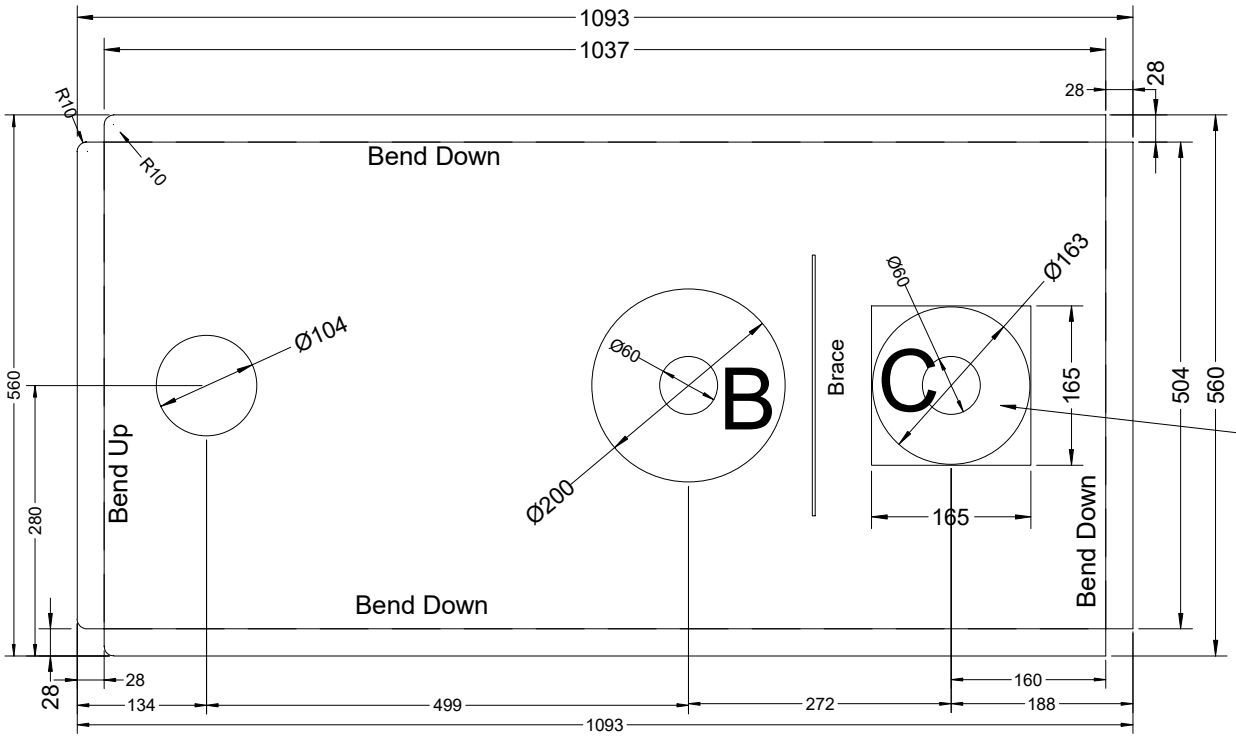
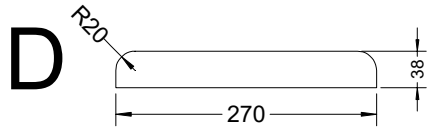
MN6.0.1.0.14 Sheet Metal 6

Model MN6.0
Version 1.0
2018-07-04

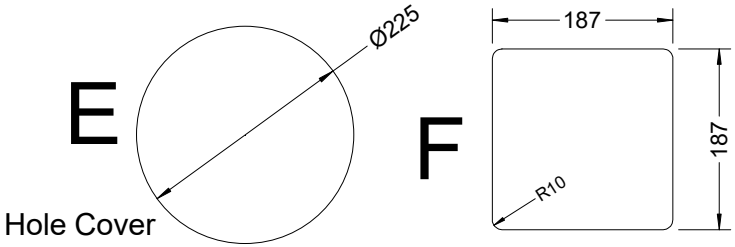


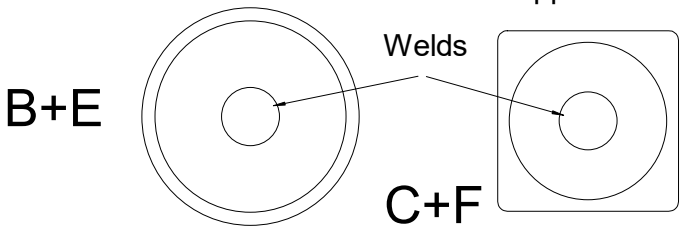
Cut the circle inside the square first.
Then cut the rest of the top.

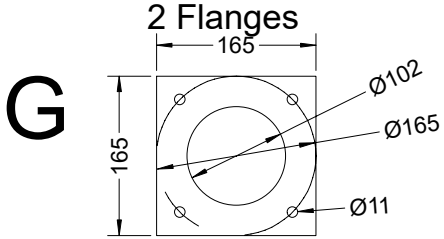


A

Cutouts from the 200mm hole and the hopper filling hole are closed with the two covers, each having a lower part welded on that serves as a guide. The 60mm dia hole in the centre are used to weld the lower part to the upper.







Top Deck, 5mm Steel plate
